

CHARLES BAKER

Software Developer

Portfolio: charlesbaker.software
Phone Number: (209) 278-9534
Email Address: cdbaker.dev@gmail.com

SKILLS SUMMARY

- **Languages:** JavaScript, TypeScript, Java, Python, SQL, C, HTML, CSS
- **Frameworks/Libraries:** Next.js, React.js, React Native, OAuth, Mongoose
- **Additional Programs:** MongoDB, Docker, Git, Github Actions, GCP, Android Studio, Jira

EXPERIENCE

- **Full Stack Developer** *August 2025 - Present Day*
Everbetter Medicine, LLC
 - **AI Engineering Velocity:** Cut UI development cycles from days to hours by building an internal LLM-driven React system that replaced the manual Figma-to-code handoff for the engineering team.
 - **Backend & Systems:** Scaled a multi-tenant NATS microservices system serving thousands of users, shipping features across the stack with TypeScript, Next.js, and MongoDB.
 - **PHI Security:** Prevented exposure of sensitive PHI (protected health information) for thousands of users by identifying and closing architectural gaps in the mobile OAuth implementation.
 - **CI/CD & Release Ownership:** Owned mobile GitHub CI/CD and DevOps for 48 engineers, supporting 3 concurrent platform tenants and 20+ app deployments.
 - **API Optimization:** Reduced API call volume by over 50% on key features by re-architecting legacy JavaScript into TypeScript.
 - **Frontend Features:** Shipped React and React Native features integrated with a microservices backend architecture and end-to-end test coverage.
- **Freelance Developer** *March 2025 - Present Day*
Self-Employed
 - **Client Site Delivery:** Shipped and deployed multiple production websites for clients using React, HTML/CSS, Framer, and WebFlow.
 - **AI Tooling for Non-Engineers:** Enabled non-technical stakeholders to run AI web scraping, manage site content, and update datasets independently by building custom Python tools.
 - **UI/UX Design & Prototyping:** Aligned site purpose and audience to UI/UX designs; created interactive prototypes in Figma.
 - **Documentation:** Reduced maintainer hand-holding by producing written and video documentation for technical and non-technical maintainers.
- **Technical Consultant** *January 2025 - March 2025*
New Clear Energy USA, Inc.
 - **Workflow Automation:** Reclaimed ~3 hours of daily productivity for leadership by designing and integrating AI-driven task automation into core business workflows.
 - **Architecture & Web Consulting:** Advised on application architecture, technical infrastructure, UI/UX design, and brand direction for the company website.

PROJECTS

- **Indigenous Database (2023-2024)**
 - **Performance:** Cut average query times from ~550 ms to ~250 ms and reduced overhead data by ~80% across all endpoints through iterative API optimization.
 - **Full Stack:** Designed a backend using MongoDB, and Express.js; developed a frontend with React, Redux, and Bootstrap.

EDUCATION

- **B.S. Computer Science** *California Polytechnic State University, SLO*
Relevant Courses:
 - Distributed Systems, Operating Systems, Machine Learning, Programming Languages, Computer Architecture, Bioinformatics Algorithms, Modern Web Development, Databases, Data Structures & Algorithms
